

ISO 14001 ENVIRONMENTAL POLICY and OBJECTIVES

Revision 2

2nd November 2009

Light Years Ahead Limited recognises environmental protection as one of our guiding principles and a key component of sound business performance.

We are committed to providing a quality product / service in a manner that ensures a safe and healthy workplace for our employees and minimizes our potential impact on the environment.

We will promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner, train, educate and inform them about any environmental issues that may affect their work.

OBJECTIVES

The following objectives have been set and will be subject to periodic audits and reviews.

We will operate in compliance with all relevant environmental legislation and will strive to use pollution prevention and environmental best practices in all we do.

Ensuring that procedures and practices do not have a detrimental impact on the environment by ensuring that wherever possible components used for assembly into our products are purchased or sourced from ISO Accredited Suppliers who demonstrate and provide a documented Environmental declaration that component parts supplied conform to both ROHS and WEEE Directives.

Reduce waste through re-use and recycling wherever possible and will promote efficient use of materials and resources throughout our facility including water, electricity, raw materials and other resources particularly those that are non-renewable, avoid unnecessary use of hazardous materials and products and take all reasonable steps to protect human health and the environment during storage and disposal.

To communicate our environmental policy to our Clients, Customers, Suppliers and encourage them to support it, Strive to continually improve our environmental performance by periodically reviewing this policy in line with our current and planned future activities.
